Dear Physician:

For a myoelectric prosthesis to be covered by insurance, the following bullet point must be included in the **physician's chart note** (a letter is not considered part of the medical record). Please fax any compliant chart notes to our office.

The physician must document the following:

- The specific activities (including ADLs) this patient needs to be able to perform which cannot be performed with a conventional (body-powered) prosthesis and require the use of a myoelectric prosthesis.

Revised 6.22.22
